Popular Publications Include:

- ***Biking and Hiking the American River Parkway:*** A mile-by-mile narrative about the natural and cultural history along the Jedediah Smith Memorial Bicycle Trail that runs from Discovery Park to Beals Point on Folsom Lake. Historical anecdotes and identification of common plants and animals reveal the richness of the Parkway and encourage trail users to take a closer look at this environment. This generously illustrated book also includes an eight-page section of color photographs. 170 pages, \$14.95
- ***The Outdoor World of the Sacramento Region:*** An illustrated local field guide to plants and animals commonly found along the American River Parkway. Originally written by Effie Yeaw, it was updated and expanded in 2005. It also includes maps and descriptions of the geologic and environmental evolution of the Sacramento region. 236 pages, \$14.95.
